RE: Former American Glue & Resins site, Middleton, MA

Number of pages including cover sheet: 3

### Message

AmyJean -- The attached price quotes from General Chemical Corp. pertain to work that remains to be done at the former American Glue & Resins site in Middleton, which is the site you and I have discussed and are planning to visit next Friday (9/18) at 9:30 a.m. The total tab for these two items comes to \$222,230.00, which I believe is well beyond the means of the property owner. So at this point it does appear that we'll be looking to see if this can be done as a federal removal action. General Chemical is also sending me a copy of all of the analytical work they have done (at their own, non-certified lab) on the 500 or so drums that are still at the site; this may be helpful to us as we go forward.

I look forward to meeting with you at the site next week. In the mean time, I will keep you advised of any further developments. Please feel free to call me at (978) 661-7732 if you have any questions. -- Steve

re: American Glue and Resins Site

Dear Ms. Atterio:

Thank you for considering General Chemical Corporation as a responsible alternative for hazardous waste disposal. We are a fully permitted Part B RCRA treatment and storage facility located in Framingham and maintain a stringent compliance program. General Chemical provides an efficient, practical and cost effective approach to waste management. In addition, we offer on-site sampling, manifesting, labels and waste tracking at no charge. We are pleased to quote you on the transportation and disposal of the following waste stream:

F-listed debris (below treatment standard)	
(1) roll-off @\$485/ton (based on 18 tons)	\$8,730.00
Credit for payment already received	<u>\$1,500.00</u>
<b>Estimated Total:</b>	<b>\$7,230.00</b>

This price quote is based on provided information and will be confirmed after routine sample analysis and profile review. An additional cost includes a Massachusetts Hazardous Waste Transportation Fee of \$36.40/ton. In order to comply with the 24-hour Emergency Response Notification per 49 CFR 172.604, General Chemical offers this ERN service for an annual fee of \$75.00. This price quotation is valid for a period of thirty (30) days and our terms are net (30) days. Printed on the reverse side of this quotation are General Chemical's standard terms and conditions which, together with this quotation, will govern General Chemical's performance of the work specified above.

Thank you for the opportunity to be of service and we look forward to the favorable reception and acceptance of our proposal. Please do not hesitate to contact me at extension 204 or your CSR, Sandy Foster, at extension 116 if we can be of further assistance.

Sincerely,

GENERAL CHEMICAL CORPORATION

Stoneham MA 02180

Dear Ms. Auterio:

Thank you for considering General Chemical Corporation as a responsible alternative for hazardous waste disposal. We are a fully permitted Part B RCRA treatment and storage facility located in Framingham and maintain a stringent compliance program. General Chemical provides an efficient, practical and cost effective approach to waste management. In addition, we offer on-site sampling, manifesting, labels and waste tracking. Based on a recent site visit and sample results from approximately 500 drums at the American Glue & Resins site in Middleton, MA, General Chemical Corporation is providing the following pricing:

Repackaging in overpack drums	\$67,000.00
Transportation and disposal of drummed waste	\$148,000.00

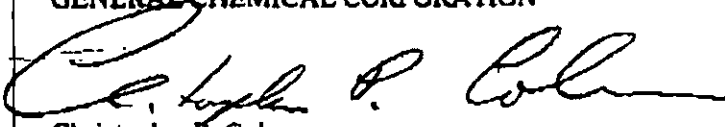

This price quote is based on drummed waste only and does not include a full roll-off staged at the building loading dock. In order to comply with the 24-hour Emergency Response Notification per 49 CFR 172.604, General Chemical offers this ERN service for an annual fee of \$75.00.

This price quotation is valid for a period of thirty (30) days and our terms are net 30 days. Printed on the reverse side of this quotation are General Chemical's standard terms and conditions which, together with this quotation, will govern General Chemical's performance of the work specified above.

Thank you for the opportunity to be of service and we look forward to the favorable reception and acceptance of our proposal. Please do not hesitate to contact me at extension 204 or your customer service representative, Denise Genna, at extension 116 if we can be of further assistance.

Sincerely,

GENERAL CHEMICAL CORPORATION
